

RE.BRUNS

SPOJUJE NÁS LÁSKA K PEJSKŮM I PŘÍRODĚ

www.rebruns.cz

RE.BRUNS is a project, that aims to combine love of animals and nature.

We create dog collars and harnesses
for dogs from quality metal buckles
and quality fabrics from **unused
recycled materials.**

**We design our own natural
motives,** for recycled fabrics, which
we combine with high-quality metal
and cotton accessories.

The final designed products are then
**produced by Czech seamstresses
with love.**

WE ARE A CZECH ECO BRAND

RE.BRUNS it is a Czech collars, harnesses and accessories for dogs, which are friendly to both dogs and nature.

- > **Recycled fabrics**
- > **Quality metal accessories**
- > **Certified materials**
- > **Breathable & comfortable**
- > **Repels dirt**

Made in Czech Republic
and by Czech seamstresses.

MATERIALS, THAT NATURE LOVES AND YOU WILL LOVE THEM TOO

We think a lot about the materials from which we make our accessories for dogs and their owners. We want them to be as gentle as possible to the nature and also to be safe for your dog friend. And, of course, it must be high quality to withstand rampage, games and movement outside in nature. After all, we are also dog breeders and we know very well what we expect from dog harnesses, collars, leashes and other equipment.

METAL BUCKLES

Long time ago we decided that there won't be any unnecessary plastics on our products. The reason is that we do not want to support their unnecessary production and also that metal buckles are simply stronger and of better quality, they can withstand a lot, even for dogs that are very agile and active. Metal tridents are very robust, solid, and also easy to open and close. Although they are slightly heavier than plastic buckles, even small dogs wear them without any problems.

Metal buckles with an engraved RE.BRUNS logo can be found not only on the collars, but also on our harnesses.

SUSTAINABILITY FOR OUR PLANET AND PETS

REDUCTION OF CONSUMPTION AND POLLUTION OF WATER

We have nature in our blood and in our hearts. We want the nature to last for us as long as possible, so we sew only from certified recycled materials, especially recycled polyester. It is made of existing plastic and save a lot of energy and water during production. Recycled polyester is made for example from caught fishing nets that cause great damage at seas or from PET bottles.

And it is such material usable? More than that! It has very high quality and it is so soft.. It must also pass really rigorous tests and meet strict criteria. The highest quality is ensured by the OEKO-TEX and Global Recycled Standard certifications, which our materials also have.

In addition, our dog accessories made of recycled materials are well maintained, strong and very durable. The resulting fabric is really comfortable, soft, breathable and also flexible. It adapts to the dog during everyday wear and the material can be easily washed.

WHAT THE RECYCLED POLYESTER BRINGS

-  lower water consumption during production (by 90 %)
-  lower energy consumption during production (70 %)
-  lower carbon footprint (90% less than nylon)
-  comfort and easy maintenance during wearing
-  sustainability and friendliness to the nature and the dog
-  quality recycled material that can withstand even dog rampage

**By purchasing
our products,
you contribute to
sustainability.**

COLLARS

WE KNOW WHAT DOGS SUITS FOR!

Collars without unnecessary plastics, with quality metal buckles and original motives, which are invented by creative Czech illustrators. The perfect quality of our dog collars made of recycled materials is because of our Czech seamstresses, who care about every stitch. They are offered in six sizes for the smallest to the largest. XXS, XS, S, M, L, XL

We are very careful when choosing materials for the production of our accessories. We choose only certified fabrics and avoid unnecessary plastics. In addition, the collars are breathable, easy to maintain and they are suitable for dogs of all sizes, breeds and ages.

Composition: 95% recycled polyester, 5% cotton, metal buckles

HARNESSES

DOUBLE - SIDED

The materials are SOFT and do not restrict the dog's natural movement.

- Easy to clean and wash.
- Made in the Czech Republic and by Czech seamstresses.
- Quick-drying, breathable and dogs are not steamed.
- Original natural and Czech design.
- Metal material for buckles and carbiners – guarantee for long life.
- Ecological materials from certified recycled fabrics.

We produce all harnesses to make joy as long as possible and for long time, and in addition producing of the harnesses is sensitive to nature. Harnesses are free of unnecessary plastics and from materials that support sustainability.

Composition: 95% recycled polyester, 5% cotton, metal buckles

LEASHES

We offer four types of ecological leashes.
Leashes are equipped with solid metal carabines for dogs up to 30 kg.

Size S - 150 cm long, 2 cm wide

Size M - 180 cm long, 2 cm wide

Size S - 180 cm long, 2 cm wide

Size M - 180 cm long, 2, 5 cm wide - switching

Made from plastics, which are hand-picked and sorted in Italy. The straps already meet the basic Oeko-Tex 100 standards and are complemented by certified organic cotton.

SCARVES

Our illustrators try to imprint the most beautiful from the nature into scarves produced by RE.BRUNS. Our scarves for dogs make a connection of beautiful design and original motive.

Scarves fit to dogs of all breeds, from bulldogs to German shepherds. You can put the scarf simply to your dog, just tie it around his neck. And of course also the owners can wear them too.

BACKPACKS

Our backpackes for dog lovers will accompany you on a trip in nature and on a walk in the city park. They can fit for dog treats and necessities for owners.

Treat yourself with a backpack for walking, which you can match with the leash, harness or collar of your dog. You will be the most stylish two by far.

The fabric of our backpacks is very pleasant to the touch, and in addition it is made of durable recycled materials, so you can wash it without any worries.
